

BLITZ IDENTITY PROVIDER

Authentication server for your organization

REAK SOFT, LLC

 identityblitz.com

CYBER THREATS — THE NEW REALITY

Increase in account takeover and phishing attacks

Ineffectiveness of password-based authentication

Large-scale data breaches

Session and token theft

Compromise of administrative and service accounts

Attacks via partners and contractors

Vulnerabilities in external integrations and remote access

Lack of proper auditing and visibility of access events

WHAT IS IAM?

Identity and Access Management (IAM) is a platform that ensures secure user access to infrastructure resources.

IAM combines:

- **Identity Provider (IDP)** – authentication server
- **Single Sign-On (SSO)** – unified login
- **Multi-Factor Authentication (MFA)**

The main goal is to provide secure and convenient access to corporate applications and services for employees, customers, and partners.

BLITZ IDENTITY PROVIDER

An on-premise Identity and Access Management (IAM) and Multi-Factor Authentication (MFA) solution for managing identification, authentication, authorization, and audit.

Its extensive feature set addresses the needs of modern enterprises by combining both security and user convenience. With support for multiple authentication methods and seamless integration with existing applications, it provides a scalable and flexible platform suitable for companies of all sizes.

ONE PLATFORM FOR ALL NEEDS

Combines IAM, MFA, user management, and access control to meet your company's security needs

VERSATILITY

Customize the product to fit your company's specific needs for UX/UI, business processes, and infrastructure

MODERN STANDARDS

OIDC, OAuth 2.0, SAML, WS-Fed, RADIUS, LDAP, REST API, JWT, WebAuthn

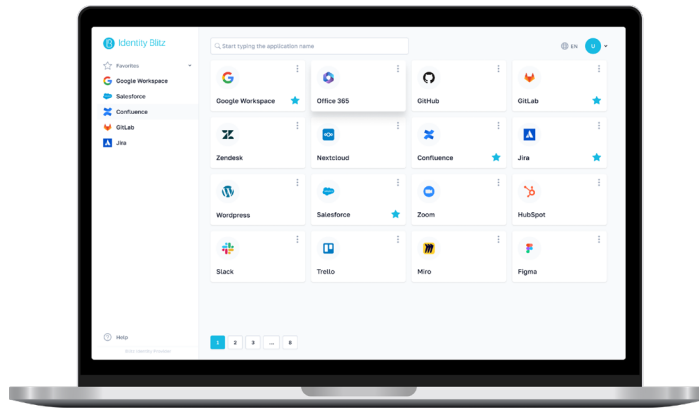

ENHANCED SECURITY

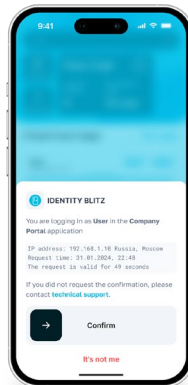

Empower your system with built-in defenses to prevent brute force attacks, phishing, and account theft

USE CASES

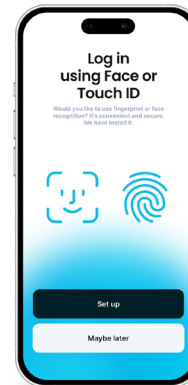

Blitz Key – Our Mobile Authentication App

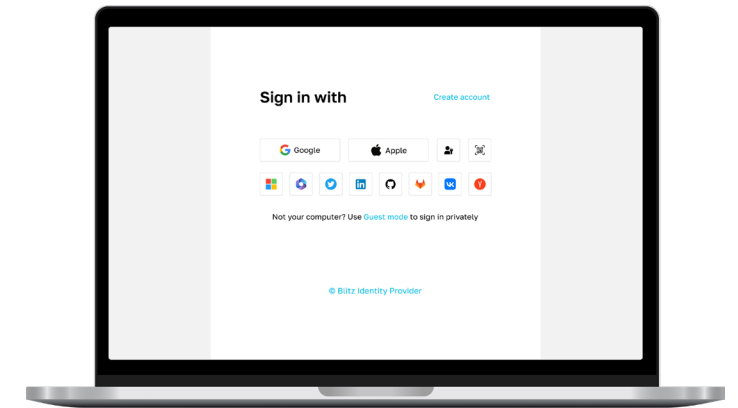

Single Sign-On (SSO)
for company applications
and services

Multi-factor
authentication (MFA)

Passwordless
authentication

External identity providers
(Apple, Google, Facebook, etc.)

OVER 20 AUTHENTICATION METHODS IN ONE SOLUTION

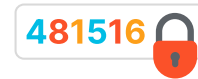

Login and password

Smart cards, FIDO2, U2F tokens

SMS, email codes, Flash Call, messengers

One-time password generators (HOTP, TOTP)

Passkeys and biometrics (Face ID, Touch ID, Windows Hello)

External identity providers

Push authentication, QR-code

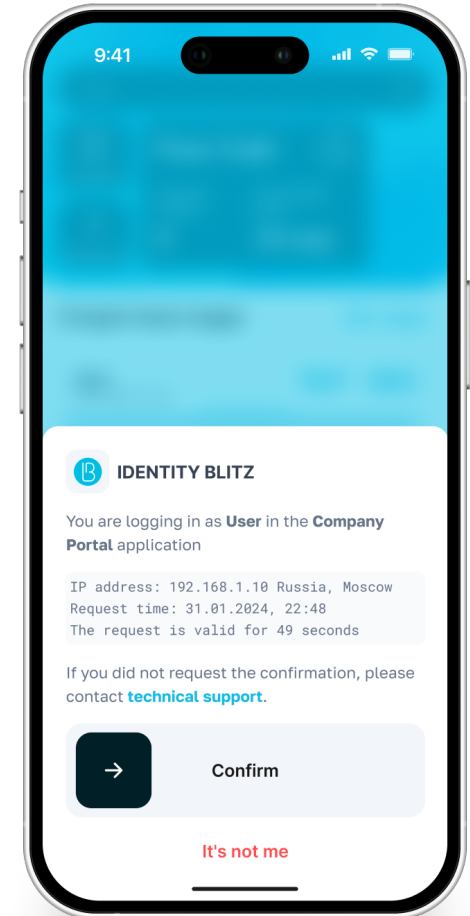

Integration with third-party MFA solutions

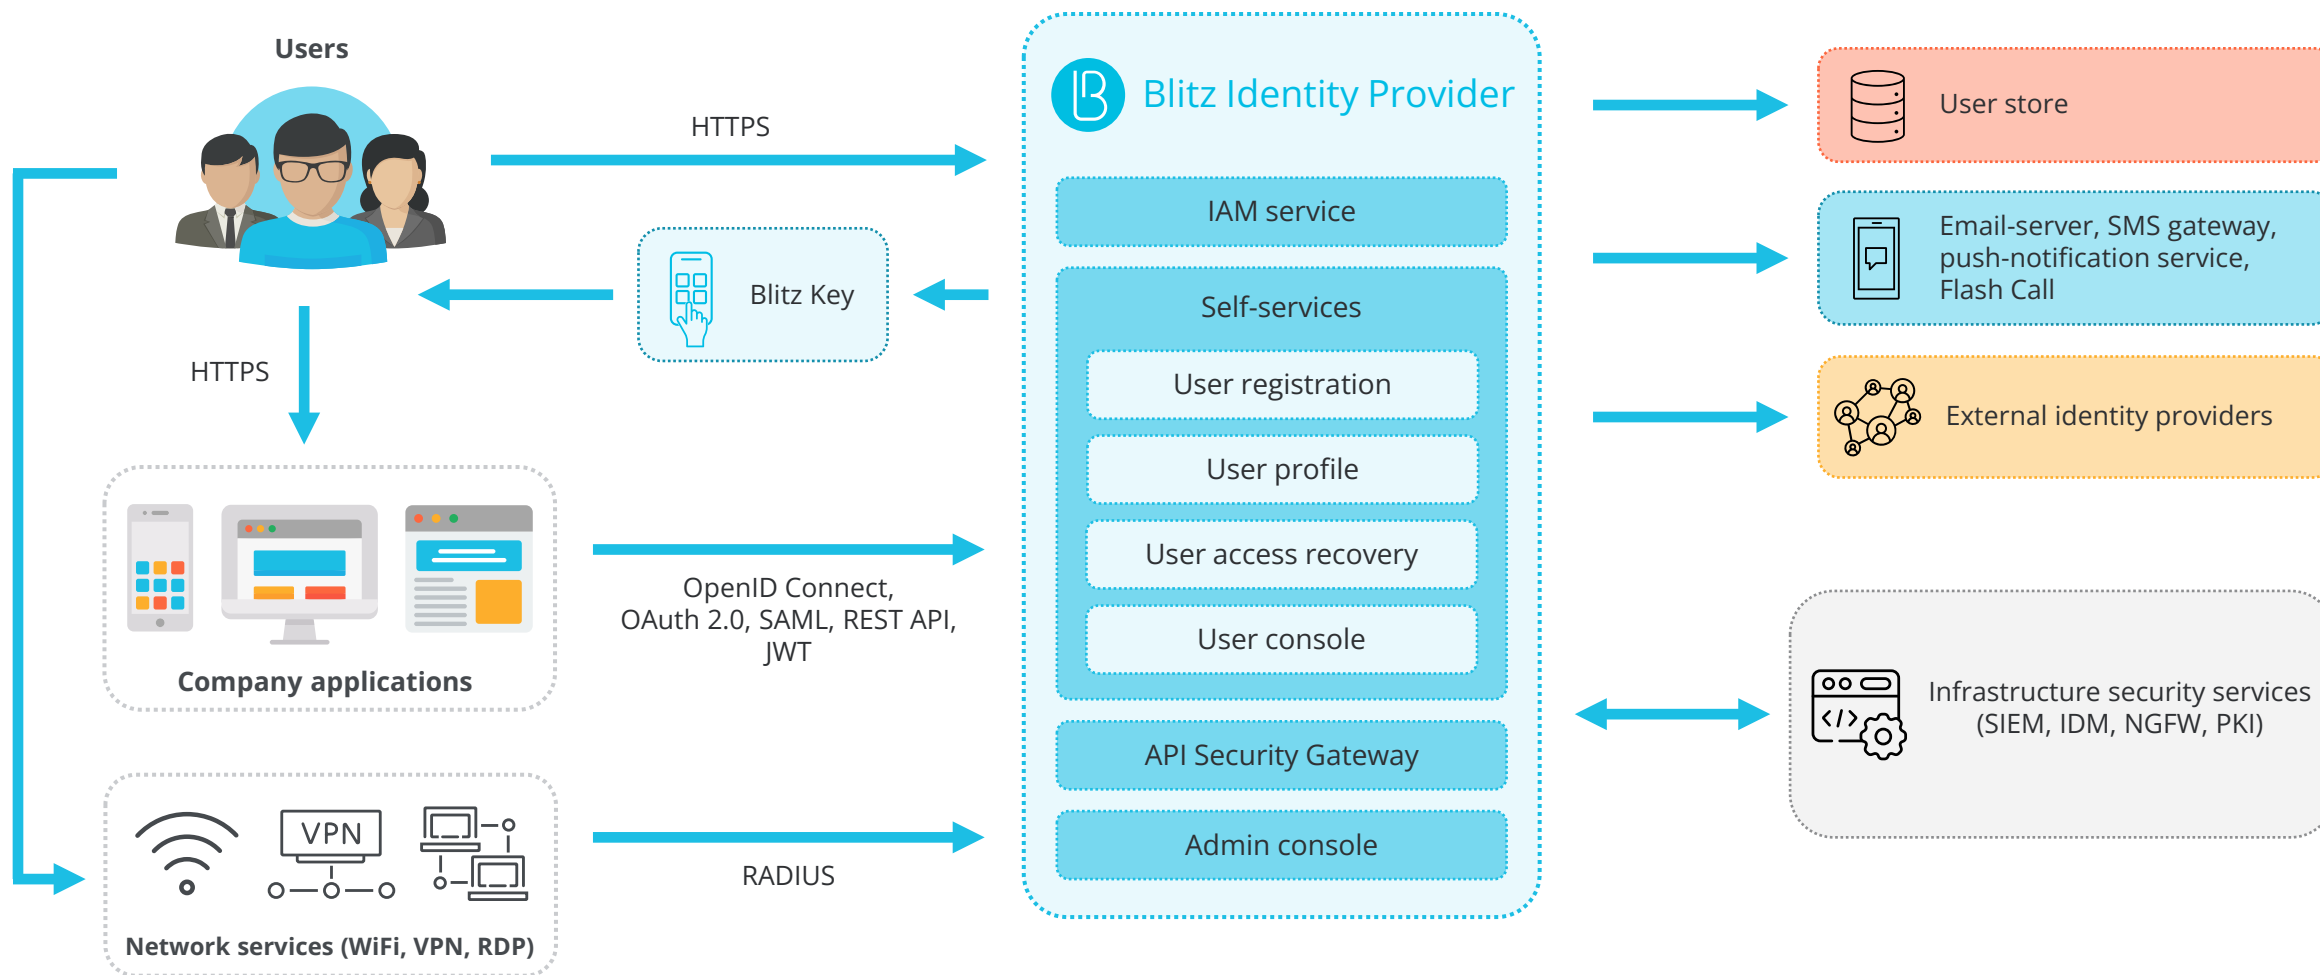

SINGLE SIGN-ON (SSO)

The SSO feature simplifies and streamlines access by allowing users to authenticate once and gain access to all company websites and applications.

- ✓ **Improved user experience and elimination of “password fatigue”**
- ✓ **Reduced administrative costs**
- ✓ **Lower risk of unauthorized access**
- ✓ **Unification of authorization policies (RBAC, GBAC, ABAC)**

GENERAL WORKFLOW

OUR COMPANY

IDENTITY BLITZ is a leading Russian software development company, providing state-of-the-art solutions for identification, authentication, and user access management for corporate applications. Since its inception in 2014, the company has been a dynamic player on the cybersecurity market.

"We empower businesses to build secure, seamless access to everything that matters."

OVER **10 years**
ON THE MARKET

OVER **100 projects**
IN PORTFOLIO

OVER **150M**
ACTIVE USERS

OUR ADVANTAGES

01

IAM EXPERTISE

The product is developed by a team of highly qualified cybersecurity experts

02

CLIENT-DRIVEN DEVELOPMENT

Product can be tailored to our customers' requests and requirements

05

EXTENSIVE PRODUCT CUSTOMIZATION

Services and product features are readily available out of the box with zero-coding

03

MODERN PROTOCOLS

Supports OpenID Connect, OAuth 2.0, SAML, RADIUS and other industry standards

04

FLEXIBLE PRICING & SERVICES

Customers pay only for the services they require

06

EXCEPTIONAL EFFICIENCY

Product provides great performance with minimal system requirements

TRY THE PRODUCT IN ACTION

Our experts are ready to assist at every stage: from presales and design to implementation and support.

Have questions? We are open to discussion and ready to offer tailored solutions for your business.
